THE 3rd INTERNATIONAL CONFERENCE OF SAT HEALTH COUNSELING

We hereby sincerely invite you and other representatives from your organization to join the 3rd international conference of SAT health counseling, September 17, Saturday, 2011 in Chiba, Japan.

The 3rd international conference of SAT health counseling highlights “To Achieve People’s Universal Health”. Based on the technique of SAT counseling & therapy, we concentrate on supporting people change their lifestyle from other-rewarded oriented to self-rewarded oriented one which would brought great effect on both contributing to the fulfillment of the need of “want to love oneself” and “want to love others”, and on contributing to build positive self-image. People will benefit from achieving this change: have greater flexibility, more ease in the body; more joy, a feeling of handling stress in a positive way; a feeling of wellness and greater personal power, good human relationship, and etc. We believe this conference will be of great benefit to our future cooperation on developing the effective program to improve human’s universal health.

We are all looking forward to seeing you soon, and should you have any questions, please feel free to inform me.
